

Living in the Wider World

I know that I can belong to lots of groups and communities.

I know that a diverse community includes many different groups of people.

I understand that we should celebrate and respect our differences.

I understand that sometimes people have to leave their homes.

I can understand how this might make them feel.

I know how the choices I make can affect the environment e.g. dropping litter can harm animals, buying single use plastics can harm the environment.

I can explain some of the ways we can help others e.g showing someone new around school, tidying my room.

I know that there are things children and/ or adults can do to help people in the wider world that we may never have met e.g. donating blood, giving unwanted clothes / toys to a charity shop.
