

Living in the Wider World

I know the value of the coins and notes I use and can put them in the correct order of value.

I know my money comes to me in different ways e.g. earning, winning, borrowing, finding, being given.

I know I can keep money in different places, and that some places are safer than others e.g. in a money box or a bank.

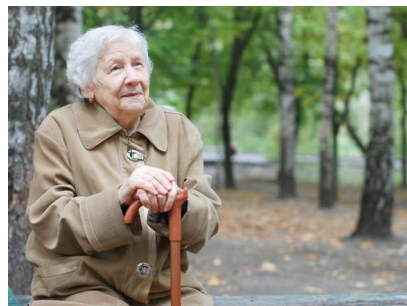

I can explain the difference between something that I need and something I might want.

I am beginning to understand that we might not always be able to have the things we want. For example, we need to buy food but we want to buy toys.

I am beginning to understand that people may make different choices about how to save and spend money.

I know that as people grow older, their needs change and they sometimes need more help and support.

I know that it's important to look after our environment and can list ways we can do this e.g. hang bird feeders, make a bee bath in the garden, leave wild flowers to grow to attract butterflies.

I know that there are lots of different jobs and that jobs help people to pay for things they need and want.

I know the skills people need to have to do certain jobs e.g. A farmer likes working outside, a teacher likes working with children.
