

Relationships

I know there are different kinds of friendships e.g.: school friends, neighbours, online friends, friends from different clubs / activities

I know that healthy friendships are welcoming towards others and do not make others feel lonely or excluded.

I know there are different kinds of families including same-sex parents, adopted and foster families and living with grandparents

I know what to do if a family relationship is making me feel unhappy, worried or unsafe eg: speak to a teacher or trusted adult or seek advice

- I can label the personal and private parts of bodies.
- I can explain the difference between safe and unsafe touches.
- I know that no one has the right to touch me in a way that feels unsafe not even someone in our family.

Urethra	Sends urine out of the bladder
Bladder	Part of the body that collects urine
Scrotum	External sack that produces semen
Vagina	Internal female private part
Uterus	The place where the egg implants in a female.
Ovary	Where eggs are produced in a female.
