

Arable farms grow crops including wheat, oat, fruits and vegetables.

Livestock farms rear animals for meat. These farms usually care for cows, pigs, chicken and sheep.

Dairy farms use the milk from cows, sheep and goats to create food like cheese, yoghurt and butter (as well as selling the milk!)

harvest	gathering in crops
rural	places in the countryside
urban	places in towns or cities
pasture	fields and grass areas for animals to eat
crops	plants which can be grown. Wheat, barley, fruit, vegetables

Some crops can only be grown in warm seasons. Some crops, like **Brussel sprouts**, can grow even in **winter**.

cow shed

pig sty

hen house

Lots of baby animals are born in **spring**.
