

Lego

Lego was invented in Denmark by Ole Kirk Christiansen. Lego means 'play well' in Danish.

Mae Jemison

Mae Jemison was the first African-American woman to go to space.

Scientists and Inventors

Zoos

Zoos are good for **conservation** which means protecting animals and habitats.

Vets

Vets are special doctors who are trained to care for and heal animals.

Measuring the weather

You can use thermometers, wind vanes, rain gauges and barometers to measure the weather.

Insulation

To keep something warm or to keep something cold using materials is called insulation. Some materials work better than others.
